Paperback Pages Number: 226 Language: Simplified Chinese Publisher: Zhengzhou University Press; 1 (April 1. 2009). The relationship between the thermodynamic irreversibility and dynamics reversibility is a fundamental question in physics . The laws of thermodynamics of War in the analysis of irreversible dynamics to explain the basis of further analysis of the thermodynamic concepts and thermodynamics laws. whether scientific. reveal the randomness of the irreversible nature of the root. Will see through the laws of thermodynamics War argument: the description of the macroscopic parameters set on the system state is incomplete. and thus there is no significance of any system. universal macro-law; law of thermodynamics is a pseudo-law of calibration of the second law of thermodynamics irreversibility is an illusion. the contradiction between the thermodynamic irreversibility and kinetic reversibility does not exist. The laws of thermodynamics War audience for the natural science and basic research and applied research scientists. the study of dialectics. epistemology philosophy workers. the system for the study of social scientists and the mathematicians of the study of probability theory. Contents: Introduction Chapter 1 power On Introduction 1.1 General power system nature of the 1.2 integral invariant system of Chapter 2 of the dynamical system timing statistical characteristics of the thermodynamic irreversibility departure from the 2.1 Hamiltonian system the phase space of orbital motion and thermodynamics The second law of contradiction between the average time of 2.2 orbital motion of the timing statistics 2.3 quantum dynamical systems in Chapter 3 dynamical systems constitute the ensemble statistics to explain the irreversibility of the flaws in logic 3.1 existing statistical mechanics in the Department of ensemble theory 3.2 the number of particles in real the state of space...
