To read **View Specpr: Software for Plotting Spectra, Installation Manual and User s Guide, Version 1.2: Usgs Open-File Report 2008-1183** eBook, remember to refer to the link under and download the document or get access to additional information that are in conjunction with **VIEW SPECPR: SOFTWARE FOR PLOTTING SPECTRA, INSTALLATION MANUAL AND USER S GUIDE, VERSION 1.2: USGS OPEN-FILE REPORT 2008-1183** ebook.

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This document describes procedures for installing and using the View SPECPR software system to plot spectra stored in SPECPR (SPECtrum Processing Routines) files. The View SPECPR software is comprised of programs written in IDL (Interactive Data Language) that run within the ENVI (ENvironment for Visualizing Images) image processing system. SPECPR files are used by earth-remote-sensing scientists and planetary scientists for storing spectra collected by laboratory, field, and remote sensing instruments. A widely distributed SPECPR file is the U.S. Geological Survey (USGS) spectral library that contains thousands of spectra of minerals, vegetation, and man-made materials (Clark and others, 2007). SPECPR files contain reflectance data and associated wavelength and spectral resolution data, as well as meta-data on the time and date of collection and spectrometer settings. Furthermore, the SPECPR file automatically tracks changes to data records through its history fields. For more details on the format and content of SPECPR files, see Clark (1993). For more details on ENVI, see ITT (2008). This program has been updated using an ENVI 4.5/IDL7.0 full license operating on a Windows XP operating system and requires the installation of the iTools components of IDL7.0; however, this program should work with full licenses on UNIX/LINUX systems. This software has not been tested with ENVI licenses on Windows Vista or Apple Operating Systems.
