SCIENCE AND TECHNOLOGY POLICY: ISSUES FOR THE 109TH CONGRESS

[DOWNLOAD](#)

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****. Science and technology have a pervasive influence over a wide range of issues confronting the nation. Decisions on how much federal funding to invest in research and development (RD), and determining what programs have the highest priority, for example, may have implications for homeland security, new high technology industries, government/private sector cooperation in RD, and myriad other areas. This report indicates the sweep of science and technology in many public policy issues, although it cannot provide a comprehensive examination of every science or technology issue which may be of interest to Congress. In some areas, such as global climate change and stem cell research, the importance of science and technology is explicit and in the forefront of the policy debate. In others, such as patent protection and telecommunications reform, science and technology may not be as explicit, but are important drivers affecting how policy makers may make decisions. This report also addresses key issues that directly affect, or are affected by, science and technology. Other mechanisms which may indirectly impact science and technology - such as tax, antitrust, and trade policies - are outside the scope of this report. The appropriate level of federal funding for research and development (RD) is among the issues facing Congress. Federal RD funding spurs technological advancement, which contributes to economic growth, and plays a role in the education of future scientists and engineers. Members of congressional committees that oversee RD have expressed concern about the possible repercussions of restraining RD funding. Science and technology also are important components of homeland security issues. Not only is Congress debating funding levels for RD for counterterrorism, but issues concerning public access to scientific information, and...
