Martino Fine Books. Paperback. Book Condition: New. Paperback. 18 pages. Dimensions: 9.2in. x 6.1in. x 0.0in. 2014 Reprint of 1920s Edition. Full facsimile of the original edition. Undated short pamphlet by Carey printed in the 1920s. George Washington Carey (1845-1924) was an American physician known for his chemistry of life publications, a subject which he referred to as biochemistry. Carey combined a mixture of religion, astrology, physiology, anatomy, and chemistry, themed particularly with a mineral-based theory of human disease to explain his views on human chemistry. He continues to be popular within new-age and homeopathic circles. In the context of a person viewed as a human molecule, Carey was the first to state that a persons body is a chemical formula in operation. This very short essay is a statement of the principles of his philosophy of the cell salts. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
