*This is the finest book I have got go through right up until now. I have got read and I also am confident that I am going to planning to read once again yet again in the future. You will not truly feel monotony at any time of the time (that's what catalogs are for about if you check with me).*

Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Bees for the Horticulturist: Bulletin of the Kansas State Horticultural Society, June, 1922 [Dr. J. H. Merrill, assistant professor of entomology at Kansas State Agricultural College, Manhattan, who is also state apiarist, has prepared the following papers, which are of much interest to those who keep bees.] Races Of Bees In Kansas. There are several races of bees found in Kansas. They are principally the Black or German bees, Caucasians, Carniolans, Italians, Goldens, and last but not least, the hybrids. Each one of these different races has individual characteristics, some good and some bad. With some of the races the bad points overbalance the good, thus making that race unsuitable for honey production in our state. The Black (or German) bee has probably been in this country longer than any of the other races. It is commonly spoken of as the native bee, although this is not true, as honeybees are not natives of this country. They were introduced into New England in 1638, and on account of their long stay here have come to be known as native bees. In spite of having been here for so long, they are not particularly well adapted to this country. They are less prolific than the Italian bees, are very cross, build a great many queen cells, and therefore swarm often. They are not very good at cleaning their hives or resisting moths. They are not resistant to European foul brood, which is one of the worst brood diseases of bees. They are very excitable, and run wildly about on the combs when the hive is opened. This, together with the fact that the queen is not...
