It explains in language and illustrations so plain as to be understood easily by any one the methods by which Lightning Calculators do their work. The New System will be found, on investigation, certainly no more difficult than the questions and problems submitted to youthful minds in the school-room in the ordinary arithmetics. This work is the result of eighteen years practical experience in actual business calculations. The author found that what his friends were pleased to call a gift of nature, which enabled him to read columns of figures at sight, was only a killful use...
