paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 229 Publisher: Higher Education Pub. Date :2011-02-01 version 1. Calculus (Vol.2) is the National Education Science Eleventh Five-Year Plan project our colleges and universities of applied training model Math class is one sub-topic research projects. Materials based on mathematical foundations of economics and management undergraduate teaching and in recent years. the basic requirements of the national graduate entrance examination Mathematics syllabus content and requirements written in order to develop and improve students' mathematical literacy. innovation. analyze and solve practical problems the ability for the purpose. in order to cultivate talents for Applied Economics and Management as the main target. This textbook seeks to popular. intuitive. concise. accurate. and the main contents of vector algebra and analytic geometry of space. multi-function differential calculus. double integral. differential equations and differential equations. infinite series. In order to develop and improve students' proficiency and ability. write in the appropriate section of mathematical modeling of experimental and mathematical content. and with Matlab software. allow the computer to complete the plane and space curves. surfaces of the mapping space. find the multi-function differential to calculate the double integral. solution of differential equations. approximation of functions and demand for and infinite series. Calculus (Vol.2) can be used as independent colleges. vocational and adult education colleges in this specialist Economics and Management of the calculus curriculum materials or reference books. Written by Pang Bin. Hu Qinglin editor. Contents: Chapter VII of the vector algebra and analytic geometry of space 7.1 a vector space Cartesian coordinate system II vector and vector coordinates Third. the angle between the vectors in the vector projection of four fixed axis. the direction cosine vector of the model and practice 7.1...
